448 LONDON/LUTON Taxiway E amended.

See amended page at www.pooleys.com/pooleys-uk-flight-guide-amendments/

453 LONDON STANSTED Replace last paragraph 'Helicopter landing area...' with:-
Helicopter Operations: All inbound and outbound helicopters must use the runways.
Helicopter handling agents are to obtain slot allocation for all flights. Helicopters may not carry out direct approaches to or take-off from apron areas or taxiways
After landing, helicopters will ground taxi or air taxi to an allocated parking area (usually an adjacent stand).

454 LONDON STANSTED Additional VRP's for Helicopters: Amend From the North and South to, From the North: North end of Hangar 12.
From the South: Diamond hangar (Hangar 8)

456 LONDONDERRY/EGLINTON Com/Nav: Amend ATIS Tel to 028 7125 3131.

457 LONDONDERRY/EGLINTON Remarks: Add Noise Abatement Procedure text:-
All pilots should arrange their flight so as to minimise noise disturbance.
Pilots should not carry out manoeuvres which attract attention to their aircraft;
Landing aircraft shall follow a descent path that will not result in it being below the visual approach path as indicated by the PAPI.

Contact details: Amend ATC Tel to 028 7181 3337. Remove Fax number.

• **461 LONG STRATTON** Warnings: Add, Both ends of the runway have tall trees.

DAAIS available on 120•705 and ATIS on 129•230.

475 MANCHESTER Under construction area added between Twy E and Twy NC.
Hold E4 redesignated as E10.

477 MANCHESTER Runway Operations, amend first paragraph to:-
Dual runway segregated operations are normally in force during the following periods
in Summer: Mon-Fri 0615-2000; Sat 0615-1600; Sun 0615-0930 & 1300-2000. At all other times, single rwy, mixed-mode operations are in force using Runway 05L/23R.

486 MANCHESTER/Barton Flight Procedures: Amend 'Go-Around Procedures' to :-
a. Manoeuvre the aircraft to the dead side of the runway, climb parallel to the runway in use, and climb to circuit height (1000ft AAL) before turning crosswind.
b. Do not climb initially above 600ft AAL until you have passed the upwind end of the runway in use. This ensures separation between you and the aircraft joining overhead, flying crosswind at circuit height.
c. Exercise caution when low flying in the go-around over aircraft on the ground, including helicopters, personnel, vehicles and control line model flying.
d. Ensure aircraft ahead are kept in sight.
e. Caution, helicopter operations up to a maximum of 500ft AAL are permitted on both the live and dead side.
f. Pilots must not carry out 'run and break' manoeuvres within the circuit.
g. As part of the noise abatement and bird avoidance procedures, long low, or fast intentional go-arounds/fly-bys along the rwy must not be carried out. Pilots having to go-around because of runway occupation must not fly low over landing aircraft.

494 MIDDLE WALLOP Com/Nav: Amend TWR 118•600 to 118•605.

501 MONA Com/Nav: Amend Valley Radar frequency to, 125•230.
